### **Organizational Vision**

PMDA, Pennsylvania's Association for Long-Term Care Medicine, will serve as a state leader in enhancing the healthcare and quality of life for Pennsylvanians across the continuum of long-term care, through the education of medical directors, physicians, nurse practitioners and other healthcare team members.

### **Organizational Mission**

PMDA, Pennsylvania's Association for Long-Term Care Medicine, is the professional organization of medical practitioners who are committed to the continuous improvement of quality care for Pennsylvanians across the long-term care continuum. PMDA will provide advocacy, education and professional development services for medical directors, physicians, nurse practitioners and other healthcare team members. PMDA advances its mission by outreach with other groups involved in long-term care.

### **Member Benefits:**

#### **Continuing Education**

PMDA offers opportunities to advance your medical knowledge and skills through our newsletter, member e-mails, website, and annual continuing medical education symposium. **Members attend the Annual Symposium for a reduced member registration fee.**

#### **Public Policy/Advocacy**

Membership in PMDA provides the opportunity to strengthen your voice in Harrisburg on matters pertinent to the field of long-term care. PMDA is taking the initiative to represent, educate, and advocate on behalf of physicians who practice in long-term care. PMDA also works collaboratively with AMDA on issues of national importance to long-term care.

#### **PMDA Medical Directors Forum Listserve\***

The PMDA Medical Directors Forum will allow PMDA members who are LTC medical directors to participate in a peer to peer e-mail based discussion group that will be able to address the clinical and administrative problems and challenges that face us all. Any PMDA member who serves as a Medical Director for Long-term Care can post a question through the e-mail system. The question or issue will be forwarded to the Forum's e-mail listing for a response and discussion. This will allow members to discuss each topic area thoroughly, without limitations of time or intensity. All responses will exist in the private e-mail domain, and will not be limited by outside opinion or oversight.
