### Job Profile Summary

Physicians at Lancaster General Health are often found collaborating with their peers and team members to provide a coordinated and holistic approach to care through our patient centered medical home model. We believe that care must incorporate all needs of the patient. This includes medically necessary before and after care services, as well as access to socio-economic resources in the community, to ensure their wellbeing as the ultimate path to recovery. Our belief in this type of approach allows our physicians the opportunity to participate in clinical and organizational improvement huddles, committees and other initiatives, providing opportunities to innovate within their own practices as well as the overarching health system.

Penn Medicine Lancaster General Health is seeking a full-time BC/BE Geriatrician to join a large and well-established geriatrics practice in Lancaster County. Join a collaborative group of sixteen Geriatricians and sixteen Advanced Practice Providers located within three office locations all with a mission of educating patients and meeting the needs of vulnerable older adults. Our group provides long-term and comprehensive medical direction while ensuring the best quality for a long-term care environment at eight facilities throughout the region.

- Must be a graduate of an accredited School of Medicine (Allopathic/Osteopathic)
- Completion of an accredited Family Medicine or Internal Medicine Residency
- Completion of an accredited Geriatrics Fellowship
- Possess or able to obtain an unrestricted PA Medical License
- Board Certified or Board Eligible
